

MENTAL HEALTH FIRST AID REFRESHER COURSE

Identify. Understand. Respond.

Since the launch of Mental Health First Aid in the UAE in 2017, the way we live, work, and connect have drastically changed. The result? Skyrocketing rates of mental health concerns. Today, the need for individuals who are equipped to identify the signs of mental health struggles and provide support is higher than ever.

The Refresher Course keeps your MHFA skills relevant and updates your knowledge with the latest in mental health research. Learn the signs that someone may be struggling while working remotely or in the new hybrid model, and sharpen your support skills by working through complex, real-life Mental Health First Aid conversations. You will also learn best practices to take care of your own mental health.

WHAT IS IT?

A 4-hour online course to update and refresh your knowledge, skills, and confidence to identify, understand, and respond to friends, family, or a colleague who may be struggling with their mental health or a mental health crisis.

WHO SHOULD ATTEND:

- Mental Health First Aiders looking to update and further practice their skills
- Accredited *Adult-to-Adult* Mental Health First Aiders whose accreditation has expired or is near expiration
- Accredited *Adult-to-Adolescent* Mental Health First Aiders whose accreditation has expired or is near expiration

KEY LEARNING OBJECTIVES:

- Understand the **gold standard** of a compassionate mindset towards mental health
- Sharpen **detection skills** to identify the signs that someone may be struggling with their mental health or experiencing a mental health crisis.
- Deepen **support skills** by working through real-life case examples of how to respond to someone who may be struggling using the A.L.G.E.E. framework
- Improve **self-care** and learn how to better care for your own mental health
- Learn the **latest research** and trending risk factors in the field of mental health
- Update knowledge of **region-specific** mental health **resources**
